**BUY ONLINE NOW!**

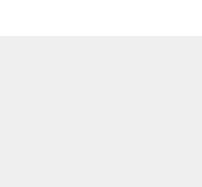

Works with All of Our Emergency Phones and K-Tech Connect 2-Way Text & Video devices.

FCC UL NFPA ASME

**RJ11 Port**

Analog Phone Signal

**RJ45 Port**

Digital Internet Signal

## FULLY COMPATIBLE

Our cellular gateway works perfectly with all of our 301, 401 & 901 series emergency phones as well as with our K-Tech Connect 2-Way Text & Video devices.

## SIM CARD INCLUDED

The Dual Air Cellular Gateway includes a SIM card for access to voice and data cellular service. Simply call to activate, and you will be up and running in minutes.

## VOICE & DATA LINES

The Dual Air Cellular Gateway provides a 35 mA analog phone line via the RJ11 port as well as internet access via the RJ45 ethernet port.

## LINE LOSS COMPATIBLE

If cell service is lost, the voltage on the phone line is dropped to trigger line loss monitoring devices, which is required in many states.

## BACK-UP BATTERY

In case of a power failure, this unit includes a 3.6V 2500mAh Ni-MH back-up battery with 4+ hours of usage time & 12+ hours of stand-by time.

## CODE COMPLIANT

FCC certified and UL approved, and meets the ASME A171-2019/CSA B44.19 requirements as well as NFPA72 & NFPA70 requirements.

## BUILT TO LAST

We stand by all of our products, so you'll get a 1 year replacement warranty along with our world renowned tech support for those times trouble may arise.
