

Elevator Lights Out? Fix It Fast!

LIGHT KIT

UNIVERSAL EMERGENCY LIGHT KIT

- ✔ Are your elevator emergency lights fully operational?
- ✔ Can they sustain power for 4 hours during an outage?
- ✔ Don't risk liability losses! Replace your existing lights with our low cost emergency light kit!

Buy Online Now!

This universal LED emergency light kit is great for replacing or upgrading COP mounted emergency lights. Directly replaces most elevator emergency light systems.

RETROFIT IN RECORD TIME

With our emergency light kit's universal mounting plate, and onboard backup battery, replacing or upgrading the existing light is fast and easy. Quickly install on existing studs and then connect power, that's it!

READY TO REACT...ALWAYS

When the power goes out, the onboard backup battery instantly takes over to power the LED emergency lights, providing upwards of 6 foot-candles of illumination, surpassing the minimum 0.2 foot-candle code requirement.

SIMPLE & RELIABLE

Our kit's onboard backup battery simplifies installation and lasts well over 4 hours, surpassing the code minimum for reliable performance. Many older systems fall short, risking code violations and entrapment in prolonged blackouts.

AMERICAN MADE...BUILT TO LAST

We stand by all of our products, so you'll get a 3 year warranty along with our world-renowned tech support for those times troubles may arise. Rest easy, we have your back!

EL-101-KT

- ✔ Integrated Back-Up Battery for Easier Installation.
- ✔ 4+ Hours Illumination During a Power Failure.
- ✔ 5 Super Bright LEDs & Built-In Test Switch.
