We are proud to introduce the all-new Liberator Plus and Fortress Plus elevator emergency communication devices, designed for superior performance and reliability.

These next-generation devices seamlessly integrate the user-friendly K-Tech Connect text and video system with our industry-leading 901 Series emergency phones.

All-In-One Key Features

- Effortless text messaging, high-quality video, and crystal-clear voice communication empowers trapped passengers to connect quickly and clearly with responders.
- Simple, accessible interface that ensures fast, stress-free interaction in emergency situations.
- Built on the trusted 901 Series emergency phones and the innovative K-Tech Connect text & video systems, these solutions are renowned for their robust design, full ADA compliance, and consistently dependable performance.
- Designed & Built in the USA and comes with a 1-3 year manufacturer's warranty.
