

**901  
SERIES**

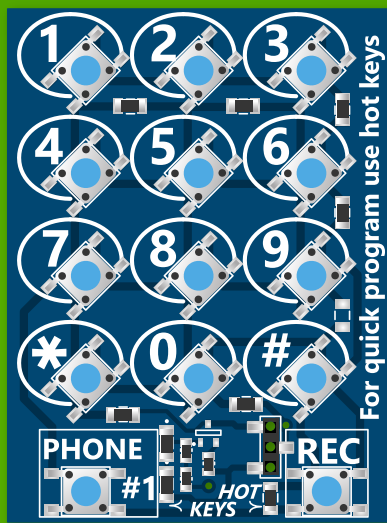

**THE FASTEST AND EASIEST PHONE TO PROGRAM!**

**Did you know our 901 phones come with the built-in hot keys?**

K-Tech 901 series emergency phones have built-in hot keys to make programming extremely fast. With the simple press of a button, you can easily program the dial-out phone number or record the location message, all while being guided by voice prompts.

**Dial-out Phone Number**

To program the primary dial-out phone number, simply press the **PHONE** hot key and follow the voice prompts.

**Location Message**

To record the elevator location message, just press the **REC** hot key and follow the voice prompts.

Hot keys are located at the bottom of the keypads mounted to every 901 series phone we make!

**Designed & Built in the USA!  
In Stock & Same Day Shipping.**

**Would you like to program backup numbers, just in case?**

Our 901 series phones allow you to program up to 5 dial-out phone numbers. In the case the first call is not answered, the phone will roll over to the next phone number you program.

**VIEW ALL 901 PHONES ONLINE!**

**Need remote programming? Yeah, you can do that!**

Aside from on-site programming, you can easily call into our 901 series emergency phones and program them remotely, right over the phone!

This is the first of a short educational series highlighting the amazing features and benefits of K-Tech's 901 series emergency phones. Keep an eye out for our next email!
